

Clear expectations to ensure children are safe

Safeguarding is continuing to operate remotely or in school.

Referrals will be made as usual if there are concerns about the children.

All of the same procedures are followed as in our Safeguarding Policy.

We expect to see the children on their zoom calls daily and will follow up if they have not been seen at all during the day. Parents will be contacted and separate virtual calls may be made with the children.

In some cases parents may be asked in for socially distanced meetings to discuss concerns.

CPoms our internal tracking system is used by all staff as well as the red alert forms system.
